TIE-BREAK	AUTO , CONTINUOUS OT , SHOOTOUT , OT and SHOOTOUT , or SINGLE OT .

Shooting for the Stanley Cup – Season Mode

In Season Mode you are responsible for all decisions on behalf of your team. From trades to season length, set up your season and set your sight on the Stanley Cup.

To start a season:

1. From the Game Setup menu, choose **ADVANCED OPTIONS**. The Advanced Options screen appears.
2. With **SELECT MODE** highlighted, press **✱** to choose **SEASON** from the Select Mode pop-up window. The Season Settings menu appears.
3. Choose desired settings for your season by toggling with the **D-Button** **↔** through the available options. Turning CPU Trading **ON** allows computer teams to trade amongst themselves and to offer you trades as well. Press **START** to return to the Advanced Options menu.

4. Finish adjusting other options as you would in an Exhibition game and press **START** to advance to the Team Select screen.
5. **D-Button** ↔ through the available NHL teams. When your desired team appears, press **START** to continue to the Season Central screen.

SEASON CENTRAL MENU

The Season Central menu provides you with access to all the information you need for a successful season.

MATCHUPS	View all of the matchups for a given day.
CALENDAR	Examine your team's (or another's) schedule by month.
TEAM REPORTS	Scrutinize your top scorers, hot and cold streaks, and more.
STATS CENTRAL	Review team, player or user stats, and more.
ROSTERS	Manage your squad into the ideal team by trading players, utilizing waivers, doing line edits, creating players, and more.
MORE OPTIONS	Adjust options and rules or configure your controller.
SAVE SEASON	Give your season a name and save it to a memory card. ➤ <i>Saving a Season</i> on p. 12.

PLAYING A SEASON GAME

- ☐ From either the Season Central, Matchups or the Calendar screen, press **START** to play the next user game in the schedule. The Controller Setup screen appears. Continue as you would in an Exhibition game.
- ☐ To simulate all the games on a given day, press ●. If you choose a future day to simulate, the computer simulates all games up to that day.

- ☐ After the last regular season game is completed, the Season Central menu appears. The menu now includes the option Start Playoffs. Select this choice to continue your season.

POST-SEASON

After the playoffs, the season and playoff awards, including the coveted Stanley Cup, are distributed. Take a look at who won what on the Awards screen. Then gear up for next year by negotiating the Rookie Draft and Free Agent Signing.

- Choose **START NEXT SEASON** from the Season Central screen to proceed to the Retirement Screen.

To draft a rookie:

1. The Retirement screen lists all of the retiring players in the NHL. Check out the summary and press **START** to begin the Rookie Draft.
 2. The Rookie Draft pop-up screen notifies you of your team's overall draft picks. **D-Button** ↔ to toggle between auto and manual draft selection and then press **START** to advance to the Rookie screen.
 3. To select a rookie (using Manual Draft), **D-Button** ↓ to that player and press ✕. Change the compared attribute by pressing **L1/R1**. The Draft Summary screen appears.
- After viewing the summary, press **START** again to proceed to Free Agency signing.

To sign a free agent:

1. The Free Agency pop-up window displays your players who are now free agents. Choose **MANUAL** or **AUTOMATIC** free agency selection by highlighting with **D-Button** ↔ and pressing **START**.
- ☐ If you select manual free agency you advance to the Free Agency screen. Otherwise the computer picks for you.

2. To attempt to sign a free agent, **D-Button** ↓ to that player and press **✖**. Change the compared attribute by pressing **L1/R1**. You can repeat this process as long as there are free agents remaining. Press **START** to go to the Free Agency Signing Summary screen.
3. After viewing the free agency signings, press **START** to begin the new season and proceed to Season Central.

To save a season:

1. From the Season Central screen, choose **SAVE SEASON**. A pop-up window prompts you to select a previously named file or **NEW**.
2. Select **NEW** by highlighting it and pressing **✖**.
3. Highlight the first letter and press **✖**. Continue until you have completed your six-character file name. Press **START** to save the season and return to Season Central.

Playoff Mania

Create Cup fever by cutting straight to the playoffs.

- Choose **PLAYOFF** from the Select Mode window in the Advanced Options menu. The Playoff Setting screen appears.
- Choose the Series Length and toggle the Valid Conference option **ON/OFF**. **ON** restricts teams to their actual NHL conference. Press **START** to return to the Advanced Options menu and finish setting options as you would in any other Advanced Options mode.

Tournament Mode

See who can stick it out in a 4- to 16-team tournament. You set the number of rounds, choose the teams and schedule the matchups.

To start a tournament:

1. From the Advanced Options menu, choose **Tournament** from the Select Mode pop-up window.
2. Pick the number of teams and the number of rounds for the tournament. Press **START** twice to advance to the Team Select screen.
3. **D-Button** to highlight desired teams and then press **✖** to select. When finished, press **START** to advance to the Tournament Central screen.
4. The Tournament Central screen is similar to the Season Central screen. From either the Tournament Central, Matchups or the Calendar screen, press **START** to begin the next user-controlled game and continue as you would in an Exhibition or Season game.

Take Your Best Shot – Shootout Mode

Recreate the thrill of a winner-take-all showdown with this intense tie-breaker simulation mode.

Setting up a Shootout:

1. From the Advanced Options menu, choose **SHOOTOUT**.
2. Navigate the Team Select, Controller Setup and Team Options screen as you would in any other mode. Press **START** to continue to the Edit Lines screen.
3. To edit a line, **D-Button** ↓ to the player to change and press **✖**. The highlight toggles to the reserve portion of the roster.
4. Highlight the player to add to the line and press **✖**. When finished editing that line, press **START**.
5. Edit the other team's line in the same way. When finished press **START** to get to the shootout.

CUSTOM OPTIONS

The Rosters menu allows you to create the perfect team through trades, waivers, line edits, and creating players.

The Rosters Menu
